

## Installation Specifications

At [www.CORONADO.com](http://www.CORONADO.com) product specifications can be downloaded in CSI format.

### Choices Specific to Coral Series

- Standard Colors:** Autumn Blend, Barbados, Cream, Santorini Blend or Any Custom Color
- Grout Joint Width:** Standard ¼" Grout Joint, ⅜" Grout Joint (nominal)
- Grouting Options:** Full Smooth Tooled
- Grout Joint Color:** Natural Grey, Natural Off-White or Complementary Color
- Accessories:** Corners (Aegean Corners are 3" Short Return, 15" Long Return), Keystones, Trim Stones, Wall Caps, Post Caps and more. (See Accessories section of binder)

### Special Installation Notes

- Pattern:** Blend the stone on the wall from several different boxes to ensure proper color and size variation. *Due to the large profile of the Aegean Coral, Coronado recommends selecting an installer that has previous experience with precast or large tile installations. See brochure photos for recommended installation pattern.*
- Chalk Lines:** Should be used by installer to ensure a straight and level pattern.
- Vertical Joints:** **Caribbean Coral:** avoid exceeding more than 2 stones in height.
- Horizontal Joints:** **Caribbean Coral:** avoid exceeding 6' to 8' in length.
- Sealing:** Not required. However, if installed on an exterior exposed to excessive water from runoff or improper drainage, we suggest the product be sealed in that particular area to protect it from staining or spalling during freeze-thaw cycles.
- Freeze-Thaw:** When installing stone in a freeze-thaw environment, extra care should be taken to ensure a full coverage of mortar on the back of each stone, which will prevent water pooling behind the stone after it's been installed.
- Installation Info:** Download Coronado's latest Classic Series installation instructions at [www.coronado.com](http://www.coronado.com) for information on mortar and installation recommendations.

### Profile Properties

- Size:** **Caribbean Coral:** stone sizes range from 4" to 12" in height and 4" to 16" in length.  
**Aegean Coral:** stone size is 16" in height and 24" in length.
- Thickness:** 1" (nominal)
- Weight:** 7 to 10 lbs. per square foot.
- Packaging:** **Caribbean Coral:** available in big boxes (144 sq ft Flats & 100 lft Corners) or Dura-Paks (13.5 sq ft Flats & 13 lft Corners).  
**Aegean Coral:** is sold by the piece.  
**When Purchasing Caribbean Coral, coverage is based on installation with ¼" joint at the back of the stone.**
