Choices Specific to Sierra Ledge

Standard Colors: Bourbon Creek, Cathedral Grey or Any Custom Color

Grout Joint Width: Drystacked

Grouting Options: Drystacked

Grout Joint Color: Color should be added to mortar to complement stone color.

Accessories: Corners, Complementary Tiles, Wall Caps, Post Caps and more. (See Accessories section of binder)

Special Installation Notes

Pattern: Sierra Ledge consists of 4" panels and should be installed in a coursed pattern with offset vertical joints. Do not install stones vertically. Blend the stone on the wall from several different boxes to ensure proper color and size variation.

Chalk Lines: Should be used by installer to ensure a straight and level pattern.

Sealing: Not required. However, if installed on an exterior exposed to excessive water from runoff or improper drainage, we suggest the product be sealed in that particular area to protect it from staining or spalling during freeze-thaw cycles.

Freeze-Thaw: When installing stone in a freeze-thaw environment, extra care should be taken to ensure a full coverage of mortar on the back of each stone, which will prevent water pooling behind the stone after it's been installed.

Drystacked: A polymer modified mortar should be used for all drystacked applications.

Installation Info: Download Coronado's latest installation instructions at www.coronado.com for information on mortar and installation recommendations.
